

## Company Overview

We are an IT management services company with a successful 10-year history. We specialise in:

- Network design and installation
- Network management and support
- IT project consulting
- Rapid, affordable technical support
- Secure data erasure and hardware recycling

**We also supply business hardware and software.**

With our help you save money, improve productivity, and make the best use of your resources.

Our service gives you a simplified, reliable and integrated IT system. With our technology, you can compete with larger businesses but without their huge budgets.

We ensure you keep up with software releases. And we install upgrades quickly and cost effectively.

We listen to what you want. We then give you a made to order solution. We aim to lower your operating costs and increase your profits. Many other firms don't offer this level of service.

We are an authorised Microsoft Small Business Specialist and a Microsoft Gold Certified Partner. Among our other certifications are:

- Microsoft Certified Systems Engineer
- Microsoft Certified Database Administrator

**Our skills include proficiency with:**

- Microsoft Dynamics CRM
- Microsoft Dynamics GP
- Microsoft SQL Server
- Small Business Server 2008
- Exchange Server
- Windows Server
- Microsoft Online Services

Our base is North London but we work across the UK. Whatever industry you're in, and whether you're a small or medium-sized business, take advantage of our expertise.

**THE RIGHT TOOLS. THE RIGHT TEAM.**  
**Get The Winning Edge.**

Docemo Business Systems. Enabling Business Is Our Business.

We solve your need for:

- Proven IT solutions
- Reduced costs and risks
- Less downtime
- Greater reliability and security
- On-site support
- Increased operating efficiency

We help you free up your time. You can then focus on developing your business.

By employing the latest Microsoft Management Technology, we ensure your IT delivers what you require. We are accredited experts at using Microsoft Solutions.

On your behalf we can:

- Install and maintain Microsoft systems management servers
- Upgrade Windows servers
- Consolidate servers
- Deploy Windows desktops
- Migrate to Windows
- Update software
- Destroy data securely

We also offer a selection of IT products.

Come to us and we give you a service that supports your long-term business goals. You benefit from our 10 years of hands-on experience. Our status as an authorised Microsoft Small Business Specialist and a Microsoft Gold Certified Partner confirms this.

We give you:

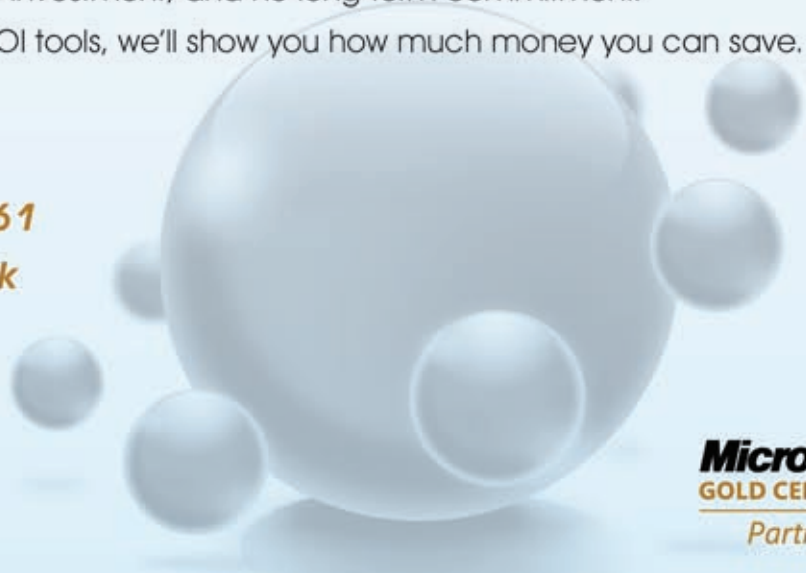

- Practical IT guidance
- Plain speaking, not jargon
- A fast response
- Attention to detail
- A friendly approach
- Competitive rates

We base our rates on a three-level subscription service. You pay as you go. This way you have lower and predictable IT costs; small initial investment; and no long-term commitment.

With our cost savings analysis and ROI tools, we'll show you how much money you can save.
